

CLUSTER OF  
SPECIALISTS IN  
OFFSHORE WIND

# EXPERIENCED OFFSHORE WIND PARTNERS

**Our knowledge is the key to your success**

The world's first offshore wind farm rose from the sea in Denmark back in the year 1991. The eleven 450 kW turbines installed at Vindeby Offshore Wind Farm, was a milestone for offshore wind energy. Since then, the Danish supply chain has been leading the path when it comes to knowledge and competences in the offshore wind market.

As the transition towards more offshore wind is now gaining momentum in Taiwan, so does the demand for reliable industry knowledge.

To support the growing supply chain in Taiwan, we would like to present a cluster of Danish companies - all with comprehensive offshore wind knowledge. We have all been working closely with the world's leading turbine manufacturers and developers of offshore wind projects since the birth of modern wind farms.

Through our yearlong involvement in the European wind

energy supply chain, we know it is important to focus on Levelized Cost of Energy (LCoE). The most efficient way of keeping down the cost, is having experienced partners on-board. This is where we can support your company.

Representing a broad range of services, our combined competencies can support the future development of offshore wind in Taiwan with skills, experience and wind industry knowledge.

Currently, all companies in the cluster are either established in Taiwan or soon to be. Therefore, we operate locally with a global offshore wind experience.

We look forward to supporting your business!

# EXPERIENCED OFFSHORE WIND PARTNERS

Our knowledge is the key to your success

## **A-LEAF**

Consultant Services & Project Organisations for Heavy Steel & Wind Projects.

*Anders Grimstrup-Larsen, CEO*

*T: +45 2161 8222,*

*M: agl@a-leaf.dk*

## **ALL NRG**

Manning, Project Solutions and High Voltage Electrical Services.

*Kristian Pedersen, Senior Sales Manager*

*T: 45 2555 4097*

*M: kristian.pedersen@allnrg.com*

## **Comtec Int.**

Workwear and Safety Equipment.

*Morten Espersen, CEO*

*T: +45 2784 7959*

*M: morten@comtecint.dk*

## **HYTOR Tools Solutions A/S**

Gensets for Temporary or Emergency Power. Sales, Rental and Service of Hydraulic Tools. On-line Tools Management System.

*Niels G. Langerhuus, CEO*

*T: +45 2121 3381*

*M: ngl@hytor.com*

Wind Energy Taiwan

## **ProCon Wind Energy A/S**

Design, Engineering and Installation of Electrical Systems.

*Claus Poulsen, COO*

*A: 9F, No. 66, Sec. 1, Heping E. Rd., Taipei, 10643, Taiwan.*

*T: +45 2141 8988*

*M: clp@procon.as*

## **Site Solutions - Taiwan Branch**

Build-up of Site Solutions and Project Logistics.

*Peter Forsberg, CEO*

*A: 12F, No. 205, Dunhua N. Rd., Songshan Dist., Taipei City 105, Taiwan*

*T: +45 2576 6505*

*M: pvf@sitesolutionpartners.com*
